

# Fire Safety Awareness Fact Sheet

Create  
Care  
Training

ASPIRE • ENDEAVOUR • ACHIEVE

## Course Overview

A course designed for all members of staff. This course will provide employees with greater fire safety awareness and is designed to increase their confidence in the action to take in case of a fire occurring.

The course includes the theory of combustion, causes of fire and the correct way to tackle a fire using the fire extinguishers available.

## Entry requirements

To register for this training learners are required to meet the following entry requirements:

- Must be aged 16 and over

## Course Benefits

The Fire Safety Order requires that fire safety training is provided to staff when they commence employment and that refresher training is provided on a regular basis. Fire is often the biggest safety risk any businesses ever has. Without fire safety training your insurances may not be valid and your staff are left vulnerable.

Don't think a fire won't happen to you, last year there were over 33,000 recorded fires in UK businesses and community buildings. Protect your staff now and give them the best chance of escape if a fire does happen.

Due to the Fire Safety Regulations (The Regulatory Reform (Fire Safety) Order 2005) Employers are legally required to provide employees with adequate Fire Safety Training on an annual basis. Our half day face to face Fire Safety Awareness course will help you fulfil this obligation by providing your staff with the knowledge and understanding of all key information regarding Fire Safety in the Workplace.

## Course Outcomes

- Understand the common causes of workplace fires
- Describe employees' responsibilities
- Understand fire law and legislation
- Identify Fire safety precautions
- Reduce the risks
- Identify different Firefighting equipment
- Extinguisher recognition (theory)

## Delivery model

To complete the Fire Safety Awareness course, learners must complete the following:

- Half day classroom delivery

*Certificates of attendance will be provided after learners successfully complete the course.*
